

GHG Meeting Hotel Guide

1. General Information

There are a lot of hotels in Leeds, probably including most of the major chains you that find in all city centres. The university campus is about 1 mile north of the main train station. There are many hotels in this area, especially towards the station. Being in this area will increase the options if you want to eat out close to your hotel.

The map below shows the approximate location of the meetings rooms on day 1 (U1 – School of Earth and Environment) and day 2 (U2, Engineering), which are on the main campus.

You can do your own search for your preferred hotel, e.g. here is a [Google maps link](#) for hotels near University, otherwise use the university information on the next 2 pages.

2. Hotel Information from University Conference Office

The University of Leeds Conference Office have also supplied the list of hotels below. These are ones which they deal with and which can offer 'university rates'. (It is worth checking that these are better than other rates available online)
